About Nicks Building Supply...

Nicks Building Supply

Nicks Building Supply has been in business since 1977, which helps explain why we can offer the best service and quality in the door business. **Nick's Building Supply** is a leading door wholesaler in the United States. Although our business name may imply other products, we only sell doors. Selling wood entry doors and wood interior doors is our specialty and we do it best for less.

In business for over 30 years, **Nicks Building Supply** has positioned itself as a major wholesaler / "retailer" in the door industry. Our innovative collection of wood doors is second to none. And, our prices are always the most competitive. We sell to individuals, contractors, builders, developers and resellers.

With over 90,000 square feet of warehouse and office space, and a showroom full of the "unusual," **Nick's Building Supply** is able to offer one of the largest selections of wood doors anywhere.

What makes us uniquely different from our competitors is that we stock fully assembled door systems, ready to ship NOW!

Contact one of our helpful representatives to assist you with your next building project or home renovation project today. Doors make a "statement" on any home!

Nick's Building Supply, Inc.
